## Taking the Classroom Outdoors...

... a workshop  
for Teachers!

**Saturday, April 2, 2011**

**8:30 a.m.—Noon**

Spring is the perfect season to enhance your classroom curriculum by taking students outside!! This workshop will provide curriculum-based outdoor activities focusing on literature, science, and math for students grades K-8 and will offer suggestions for **enhancing the outdoor space at your school**. School garden plans, lessons, and tips will be presented by Heather Hyden from the Metro Health Department. In addition, Mekayle Houghton from the Cumberland River Compact will provide information and resources about developing a school rain garden and how to receive **FREE** plants, trees, and other resources to plant on your campus.

**Leaders:** Vera Vollbrecht, Kim Bailey, Heather Hyden, & Mekayle Houghton

**Please call the Nature Center to register at 352-6299.**
